

# How To Love You

Nikki Mathis

Key of Ab  
58 BPM

## Verse 1:

Sometimes I don't know how to love you  
I don't know how to make the words come out  
When I am feeling so much doubt  
But I'm still crying out

## Verse 2:

I don't know how to love you  
How do I sing a song that I just don't believe  
At least right now my heart is being real as I can be

## Verse 3:

How do I love you?  
I don't know how to lift my hands and say  
that you are with me every day  
When I'm listening for you to say  
something

## Chorus:

Cause they say that your always speaking  
But I am so unbelieving  
I say I give you everything

Eb                                    Ab          Fm Db Eb  
When I am only hearing all the things that I want to

**Verse 4:**

                                    Ab  
Oh teach me how to love You  
                                    Fm  
Show me how to hear you loud and clear  
                                    Db  
That you have always been near  
                    Eb  
And go beyond my thoughts and feelings

**Verse 5:**

                                    Ab  
I know I really love You  
                                    Fm  
I know that at the end of it all my unbelief  
                    Db  
Is a fleeting thing  
                                    Eb  
You've shown yourself time and time and time again

**Verse 6:**

                                    Ab  
Thats why I love You  
                                    Fm  
Thats why I can lift my hands and say  
                                    Db  
That you have been with me every day  
                    Eb                                    Ab          Fm Db Eb  
I just forgot to say thank You Oh, How I love You

**Chorus 2:**

                                    Fm  
Cause I know that You're always speaking  
                                    Db  
And now I am really hearing  
                                    Ab  
How I can love you cause You loved me first

Eb

And showed me how to always say

Ab Fm Db Eb

Thank You..
